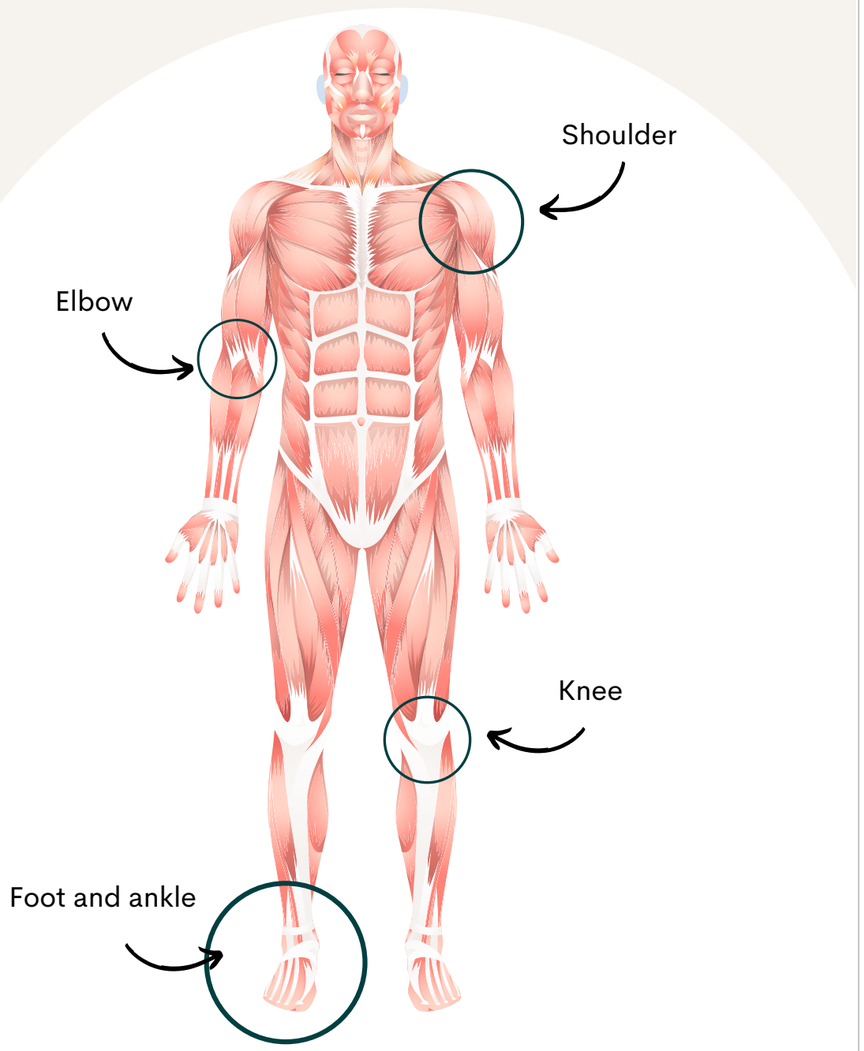
Vergenix™ STR

Advanced Soft Tissue Repair matrix for treatment of tendinopathy, combining an innovative human collagen technology (rhCollagen) with autologous PRP (Platelet-Rich Plasma) derived from patient's blood.



Tendon injuries

Frequent both in athletic and less active individuals

2%

prevalence globally[1,2,3]

30%

of musculoskeletal pain consultations are related to tendon injuries [4]

~ 40%

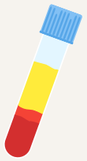
of sporting injuries involve tendon disorders [4]

CollPlant
Pioneering Regenerative Medicine

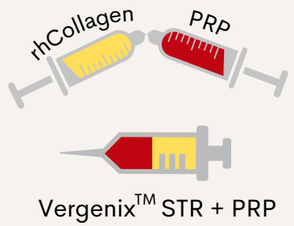
How does Vergenix™ STR work?

Vergenix™ STR is intended to localize and prolong the effect of PRP alone and provide significant clinical improvement to tendinopathy [4, 6]

rhCollagen scaffold for cell proliferation and tissue regeneration [5]



PRP treatment for growth factors release



Vergenix™ STR + PRP

1

Single treatment

X2

Functionality score improvement after treatment [5]

95%

Pain reduction after treatment [5, 6]

Thousands of patients in over 15 countries treated successfully to date
